

# The Vertex Patient Commitment

The Patient Advocacy Team is committed to the Vertex mission of creating transformative medicines for people with serious diseases. We seek to identify opportunities where we can partner with and learn from patients living with rare diseases, like cystic fibrosis (CF), and represent the community voice within Vertex.

## A Patient-Centric Approach

### We Strive To:

- Put patients first and at the center of everything we do
- Communicate in a way that is accurate, honest, transparent and clear
- Listen with empathy and learn from patients and caregivers
- Respect the relationship between the patient and physician
- Empower patients by helping them to access the information and resources they need to manage their disease
- Support initiatives that help patients to live a fuller, more engaged lifestyle
- Encourage and provide opportunities for our employees to engage in the community
