

## **POLITICAL ENGAGEMENT PRINCIPLES**

### **Our Mission**

Every day, Vertexians work hard to improve the lives of patients. In so doing, we recognize the importance of public policy in supporting our mission of creating transformative medicines for people with serious diseases. Public sector decisions significantly affect our business and industry, as well as the communities in which we operate and the patients that we serve. It is therefore critical for us to interact with policymakers across the political spectrum to advocate for policies that benefit patients and foster biopharmaceutical innovation and advancement.

We have regular and constructive engagement with government officials and policymakers at the federal, state, and local levels to promote an innovative, patient-focused policy environment. We also contribute to state and local candidates and political organizations where permitted by applicable law. Our participation in the political process is guided by our [Code of Conduct](#).

### **Management and Board Oversight**

The Vertex Board of Directors has oversight over the Company's public policy activities, including political contributions and lobbying, and reviews our public policy and lobbying priorities at least annually. Our Head of U.S. Public Affairs is responsible for approving all corporate political contributions and ensuring that they align with our mission and business priorities. Political contributions are made without regard for the private political preferences of Vertex executives.

### **Lobbying and Political Activities**

#### ***Lobbying***

We comply with the Lobbying Disclosure Act and file quarterly reports listing the issues for which we are conducting lobbying activities and the amounts we spend in support of those activities, including (i) total federal lobbying expenditures, (ii) the name of the specific piece of legislation or subject that was the topic of communication, (iii) disclosure of Vertex individuals lobbying on behalf of Vertex, and (iv) identification of the legislative body or executive branch that was contacted. Our latest federal lobbying disclosure filings are available on the [U.S. Senate Office of Public Records website](#) and the [U.S. House of Representatives Office of the Clerk website](#).

Lobbying disclosure rules also often apply at the state and local levels. We have included, and will update annually, an Appendix listing the states in which we file lobbying reports and, to the extent available, links to state websites where such information can be found.

We do not engage in grassroots lobbying communications.

### *Political Contributions*

Vertex contributes to state and local candidates where permitted by applicable law. Our contributions are bipartisan and support candidates and policies that will enable us to create transformative medicines for people with serious diseases, including those that further biopharmaceutical innovation and access to medicines; help patients with serious diseases; and impact our employees or geographic areas where our facilities are located. We also may provide financial support to other political organizations, including 527 organizations. A list of these contributions will be updated annually in the Appendix.

Vertex does not make independent political expenditures and does not make payments to influence ballot measures.

At times, Vertex may contribute to 501(c)4 organizations that engage in lobbying or political activity. We will disclose such organizations annually in the Appendix and, to the extent available to us, the portion of those payments used for activities that are not deductible under Chapter 162(e) of the Internal Revenue Code. Vertex does not contribute funds intended for elections to 501(c)4 organizations.

### *VPAC*

The Vertex Political Action Committee (the “VPAC”) is a nonpartisan organization that contributes to federal and state candidates across the political spectrum. VPAC-supported candidates share our commitment to ensuring access to transformative medicines and recognize the vital contributions that Vertex and its employees make in discovering medicines that can prevent, cure or fundamentally change the outcomes of serious diseases for patients and their families. VPAC takes into consideration many issues that are important to meeting the needs of the patients we serve, our employees, and our company. A contribution from VPAC does not mean that Vertex agrees with the candidate on every issue.

The VPAC is funded entirely by voluntary contributions from employees and members of our Board of Directors. Federal law prohibits corporations from making direct contributions to federal candidates, political parties, and political committees. Companies are permitted to administer a political action committee funded solely by voluntary employee contributions.

VPAC’s contributions are publicly disclosed in reports with the U.S. Federal Elections Commission available here: [www.fec.gov/data/committee/C00468660/](http://www.fec.gov/data/committee/C00468660/). All VPAC spending decisions are reviewed by the VPAC Board of Directors and are approved by Vertex’s Head of U.S. Public Affairs.

**Trade Organization and Industry Group Memberships**

Vertex is a member of industry and trade groups that are aligned with our business objectives and our political contributions philosophy. Our government affairs executives evaluate our participation in these organizations regularly to ensure alignment with our contribution criteria and principles.

While we may not always agree with the positions taken by these organizations or their members, we are committed to participating in the discussions. In some instances, these organizations may use membership dues to engage in lobbying activities. We do not direct, nor have discretion over, how these funds are used.

In 2024, the industry and trade organizations to which Vertex paid more than \$25,000 in membership dues or other payments, and to the extent available to us, the portion of those payments that were used for activities that are not deductible under Chapter 162(e) of the Internal Revenue Code were:

<b>Organization</b>	<b>Non-Deductible Portion of Payments (\$)</b>
Biotechnology Innovation Organization	185,701
California Life Sciences Association	10,640
Texas Healthcare and Bioscience Institute	3,500
Massachusetts Biotechnology Council	4,000
New York Bio	432
